

MOHAMMAD BASHEER

FULL-STACK DEVELOPER

- Location: Damascus, Syria
- Email: mobasheer895@gmail.com
- LinkedIn: [Mohammad Basheer | LinkedIn](#)
- GitHub: github.com/mobasheer895-coder

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building modern web applications using React, TypeScript, Next.js, Node.js, and Express.js. Experienced in developing responsive interfaces, RESTful APIs, authentication and authorization, database integration, and state management. Focused on building clean, maintainable, and scalable web applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, React Router, Hooks, Context API, Redux Toolkit, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, CRUD, Authentication, Authorization, JWT, Cookies, Middleware, Validation, Error Handling, CORS

Databases: PostgreSQL, MySQL, MongoDB, Mongoose, Prisma, SQL, Database Design, Relational Databases

Tools: Git, GitHub, Postman, npm, Terminal / CLI, Vercel, Axios, Tailwind CSS

SELECTED PROJECTS

Twitter Backend API

Next.js · TypeScript · PostgreSQL · Prisma · JWT · bcryptjs · Zod

GitHub: [mobasheer895-coder/nextjs-twitter](https://github.com/mobasheer895-coder/nextjs-twitter) **Vercel:** <https://nextjs-twitter-chi.vercel.app>

- Developed a backend-focused social media API using Next.js and TypeScript with PostgreSQL and Prisma.
- Implemented authentication and authorization using JWT and password hashing with bcryptjs.
- Designed and managed the relational database using Prisma migrations.
- Implemented request validation with Zod and structured API error handling.
- Documented project setup, database migration, environment configuration, and local development workflow.

EduPres

Next.js · React · TypeScript · Redux Toolkit · Tailwind CSS

GitHub: [mobasheer895-coder/edupress-nextjs](https://github.com/mobasheer895-coder/edupress-nextjs) **Vercel:** <https://edupress-nextjs.vercel.app/>

- Developed a responsive education platform interface using Next.js, React, and TypeScript.
- Implemented application state management using Redux Toolkit and React Redux.
- Built reusable UI components and structured pages using Next.js.
- Implemented responsive layouts and styling with Tailwind CSS.
- Deployed the application to Vercel.

Dashboard TypeScript

React · TypeScript · Vite · Axios · React Router · Tailwind CSS

GitHub: [mobasheer895-coder/Dashbourd_typeScript](https://github.com/mobasheer895-coder/Dashbourd_typeScript) **Vercel:** <https://dashbourd-type-script.vercel.app/>

- Developed a responsive dashboard application using React and TypeScript.
- Implemented client-side routing using React Router.
- Integrated API requests using Axios for dynamic application data.
- Built reusable interface components and responsive layouts using Tailwind CSS.
- Configured the project with Vite and TypeScript for development and production builds.

EDUCATION

Diploma in Computer Engineering — 2025

Institute of Computer Technologies — Damascus
